

STATE OF VERMONT
PUBLIC SERVICE BOARD

CPG #NM-1573

Application of Andrew Jackson for an Amended)
Certificate of Public Good for an interconnected)
group net-metered photovoltaic electrical power)
system)

Order entered: 11/4/2011

I. INTRODUCTION

This case involves an application filed by Andrew Jackson ("Applicant"), on October 11, 2011, requesting an Amended Certificate of Public Good ("CPG"), pursuant to 30 V.S.A. §§ 219a and 248 and Vermont Public Service Board ("Board") Rule 5.100, for a net metering system. On August 10, 2011, the Board issued a CPG to the Applicant for a net metering system that consists of a photovoltaic system. The Applicant is now seeking an amendment to the CPG to reflect an 0.228 kW AC increase in the system-rated capacity, from 3.42 kW AC to 3.648 kW AC, and to reflect the formation of a group system that includes two electric meters.

Notice of the application has been sent to all parties as specified in the Board's Rule 5.100. The notice stated that any party wishing to submit comments or request a hearing in this matter needed to file comments with the Board within ten (10) working days of the date that the notice of the application was sent.

No comments have been received from any other parties or interested persons.

The Board has reviewed the application and accompanying documents and agrees that, pursuant to 30 V.S.A. §§ 219a and 248 and the Board's Rule 5.100, a CPG should be issued without further investigation or hearing.

II. FINDINGS

Based upon the application and its accompanying documents, the Board makes the following findings in this matter.

1. The proposed net metering project will be on property owned by the Applicant and located at 19 Bailey Avenue in Montpelier, Vermont. Application at Section 1.

2. The proposed net metering facility is to be erected on an existing structure. Application at Section 4.

3. The proposed project consists of a photovoltaic electrical generation system with a system-rated output of 3.648 kW AC. The facility will be interconnected with the Green Mountain Power Corporation electrical distribution system. Application at Section 4 and attachment.

4. Applicant has specified the meters to be included in the group system by account number and location. Applicant has also provided a method for adding or removing meters included in the group system. Application at Section 7 and attachments.

5. Applicant has designated himself as the person responsible for receiving all communications regarding the group system. Application at Section 7.

6. All disputes among users of the group system shall be resolved by the Applicant. Application at Section 7.

7. Applicant has certified that the project is in compliance with all of the provisions of Section 3 of the application. Based on these submissions, we conclude that the project does not raise a significant issue with respect to the environmental criteria of 30 V.S.A. § 248. Application at Section 3.

8. Applicant has certified compliance with the insurance requirements as set forth in Section 3 of the application. Application at Section 3.

III. CONCLUSION

In Docket No. 6181,¹ the Board developed a net metering program in accordance with the statutory requirements of 30 V.S.A. § 219a. This program was further refined by the Board with the adoption of Board Rule 5.100 on March 1, 2001. The goals of the Order and Rule are to encourage private investment in renewable energy resources, stimulate the economic growth of the state and enhance the continued diversification of energy sources used in Vermont. The

standards and requirements adopted in the Order and Rule have been determined by the Board to protect public safety and system reliability.

Based upon the findings and evidence, the proposed net metering project will be in compliance with the requirements of the Board's Order in Docket No. 6181 and Rule 5.100, the application does not raise a significant issue with respect to the substantive criteria of 30 V.S.A. § 248, and the proposed project will promote the general good of the state.

IV. ORDER

IT IS HEREBY ORDERED, ADJUDGED AND DECREED by the Public Service Board of the State of Vermont that the proposed photovoltaic group net metering system, as amended and in accordance with the evidence and plans submitted in this proceeding, will promote the general good of the State of Vermont pursuant to 30 V.S.A. § 219a, and an Amended Certificate of Public Good to that effect shall be issued in this matter, pursuant to 30 V.S.A. §§ 219a and 248.

DATED at Montpelier, Vermont, this 4th day of November, 2011.

BOARD
OF VERMONT

OFFICE OF THE CLERK

Filed: November 4, 2011

Attest: s/ Susan M. Hudson
Clerk of the Board

NOTICE TO READERS: This decision is subject to revision of technical errors. Readers are requested to notify the Clerk of the Board (by e-mail, telephone, or in writing) of any apparent errors, in order that any necessary corrections may be made. (E-mail address: psb.clerk@state.vt.us)

Appeal of this decision to the Supreme Court of Vermont must be filed with the Clerk of the Board within thirty days. Appeal will not stay the effect of this Order, absent further Order by this Board or appropriate action by the Supreme Court of Vermont. Motions for reconsideration or stay, if any, must be filed with the Clerk of the Board within ten days of the date of this decision and order.
